OBJECTIVE

Computer Science undergraduate with a strong foundation in data structures, algorithms, and Agile methodologies. Proficient in C++, Java, and full-stack development. Experienced in designing, building, and maintaining scalable, reliable software solutions within collaborative engineering environments.

TECHNICAL SKILLS

Languages (OOP): C++ (Advanced), Java (Advanced), C, JavaScript (ES6+), Python

Frontend: React.js, HTML5, CSS3, Responsive Design Backend: Node.js, Express.js Database: MongoDB, SQL

Tools & Practices: Git, GitHub, Agile/Scrum, Code Review, REST APIs, OOP Design Principles, SDLC

PROFESSIONAL EXPERIENCE

Super Contributor

Oct '25 - Present

Open Source Contributor

- Achieved Super Contributor status by maintaining a consistently high pull-request acceptance rate, demonstrating strong code quality, best practices adherence, and sound technical judgment

PROJECTS

TubeRAG - AI-Powered Video Analytics Platform

- Built a (RAG) system using LangChain and the Gemini API to extract, chunk, and query multi-hour YouTube video transcripts in real-time.
- Developed a full-stack MERN interface with asynchronous transcript processing pipelines, conversational AI streaming, and secure user session management
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Gemini API, LangChain, Vector Databases, JavaScript

GitHub Glow — Repository Architecture Visualizer

- Architected a full-stack visualization tool using the MERN stack to transform complex, multi-folder GitHub repository structures into interactive, visual structural trees.
- Integrated GitHub REST and GraphQL APIs to securely authenticate users, fetch live repository metadata, and track real-time commit and contribution metrics.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, GitHub API, REST/GraphQL, Tailwind CSS, JavaScript.

LEADERSHIP & VOLUNTEER EXPERIENCE

Technical Coordinator

Sep '25 - Present

CodeChef ABES EC Chapter

- Mentored 100+ students in Data Structures & Algorithms (DSA), OOP concepts, and competitive programming, aligning curriculum with industry-relevant engineering best practices.
- Organised coding challenges, technical workshops, and hackathons; managed timelines and coordinated cross-functional student teams in a cooperative environment.

EDUCATION

B.Tech – Computer Science & Engineering

Sep '24 - Aug '28

ABES Engineering College, Ghaziabad

Ghaziabad

- Relevant coursework: Data Structures, Algorithms, Object-Oriented Programming, Web Development

Senior Secondary (Class XII – CBSE)

Mar '24

Kendriya Vidyalaya No. 1 Percentage: 92.8%

Gorakhpur

Secondary (Class X – CBSE)

Mar '22

Kendriya Vidyalaya No. 1 Percentage: 90.0%

Gorakhpur

CERTIFICATIONS

- Build Real World AI Applications with Gemini and Imagen – Google Cloud Skill Badge
- Introduction to Front-End Development – Simplilearn (2025)
- Problem Solving (Basic) – HackerRank (2025)
